## PocketMemo

### Rechargeable batteries

1600 mAh rechargeable AA

No capacity loss over time

NiMH technology

Environment friendly

LFH0153

## Record longer

with rechargeable batteries

Benefit from long-lasting performance for your digital recorder. Nickel-Metal Hydride technology allows recharging up to 1000 times and makes replacement of the batteries almost unnecessary.

### Top performance

- Enjoy the full capacity over and over again
- NiMH technology for recharging multiple times
- Save the environment and money compared to alkaline batteries
- The battery for Philips dictation recorders

## Highlights

### No capacity loss over time

A Nickel-Metal Hydride battery can be re-energized fully up to 1000 times without draining it before charging. This allows easier and better use of your rechargeable batteries.

### Nickel-Metal Hydride

Nickel-Metal Hydride technology allows recharging multiple times and makes replacement of the batteries almost unnecessary.

### Environment friendly batteries

Because rechargeable batteries can be recharged and reused numerous times, they contribute less waste and help save your money and the environment.

### 1600 mAh rechargeable AA

The 1600 mAh of energy offers long-lasting performance for your recorder.

## Specifications

### Power

Battery capacity: 1600 mAh

Battery type: AA Nickel-Metal Hydride

Battery voltage: 1.2 V

### Package contents

2 rechargeable batteries

### Compatibility

Philips PocketMemo dictation recorder:

LFH0388, LFH0488

### Green specifications

Chemical composition: Nickel-Metal Hydride

Heavy metals: Cd free, Hg free
